AEROSOL DISPENSER 3000

INSTRUCTIONS

1. <u>Setting the clock</u>: Press the MODE button until CLOCK appears in the bottom right-hand corner, then press the HOUR and MIN buttons until the current time appears. Keep in mind this is a 24-hour (military time) clock. Next press the WEEK button to set the day of the week (1 is Monday and 7 is Sunday).
2. <u>Setting on/off time</u>: The unit will operate for 24 hours a day unless it's programmed differently. Press the MODE button until START appears, then press the HOUR and MIN button until the desired start time is on display. Repeat this procedure for the STOP function for setting the desired stop time.
3. <u>Setting spray interval</u>: The unit is pre-set to go off every 15 minutes. All other desired intervals must be programmed. Press the MODE button until INTERVAL appears, then press the MIN button until the desired spray interval appears (1 to 60 minutes).
4. <u>Setting weekend on/off</u>: Press the MODE button until WEEK appears, then press the WEEK button to set weekend on or off. On the display, numbers 1 through 7 will appear which indicates 7 days of operation. To set the weekend off, press the WEEK button until only numbers 1 through 5 are displayed (Monday through Friday).
5. <u>Aerosol can set up</u>: When the unit is OFF, insert the aerosol can into the dispenser upright. Ensure the nozzle is facing forward and fits securely in the metal retaining bracket.
6. <u>Activate</u>: Once the aerosol can is secure, press the ON/OFF button to turn the unit back on. The LED indicator will flash green/red 3 times and the actuating arm will activate 1 time as a system check.
7. Close the cover and make sure the hatch is secure.

CAUTION: ONLY INSERT AEROSOL CANS OR BATTERIES IN DISPENSER WHEN THE UNIT IS OFF. WHEN TURNING THE UNIT ON, DO NOT STAND IN FRONT OF THE DISPENSER TO AVOID BEING SPRAYED.
