Cinnamon Oil.....	1.0%
Sodium Lauryl Sulfate.....	0.5%
Citric Acid.....	0.2%
Inert ingredients*.....	96.3%
Total.....	100%

*water

INSTRUCTIONS FOR USE:

Spray Iguana-Rid thoroughly in all areas where iguanas bask, feed, are seen, or there is evidence of their presence such as droppings, claw marks, or chewed plants or any other area where control is desired. ***DO NOT SPRAY directly on flowers and plants!*** Iguana-Rid is non-harmful *when used as directed*, and works by producing an odor and taste which is disagreeable to a variety of home and garden pests. Initially applying liberal amounts will be most effective. It may take several days for results depending on the severity of the infestation. Re-application is recommended every 3-5 weeks.

The Only time it does not work is when you don't use enough!
