

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

CAUTION: Avoid contact with face, eyes or skin. Avoid breathing vapors or spray mist. Harmful if swallowed. Wash thoroughly after handling and before eating or smoking. Do not use on humans.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have product container with you when calling for help or going for treatment.

Precautions

6 FL. OZ. / 178 ml

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING. Do not transfer to another container. To Repel & Kill mosquitoes, chiggers, mites and ticks, including ticks which carry Lyme Disease and Rocky Mountain Spotted Fever. **This product must not be applied to clothing while it is being worn. Under no circumstances should bare skin or clothing on the body be treated.** Do not spray directly on or otherwise allow to come in contact with skin, face, or eyes. This product is to be used as a clothing treatment only. In case of accidental spraying of skin, face, or eyes, see "First Aid" on side panel. Make all applications outdoors.

Activate pump 5-10 times to spray. Completely remove pump top, use just enough repellent to cover clothing, recharging pump as needed.

For six week protection against ticks, chiggers, mites, and mosquitoes, select an outdoor area protected from the wind, spray outer surfaces of clothing (while not being worn) with a slow sweeping motion to lightly moisten the surface of the fabric, holding pump at a distance of 6 to 8 inches. (A complete outfit consists of shirt, trousers, and socks.) Treat outer surfaces of each outfit, front and back, for 30 seconds on each side and allow to dry for at least 2 hours (4 hours under humid conditions). Pay particular attention to socks, trouser cuffs, and shirt cuffs. One pump bottle will treat one complete outfit. Do not exceed recommended spraying times. Clothing should be retreated after six weeks or after the sixth laundering to maintain adequate protection. In heavily infested areas, protection from ticks will be improved by either wearing the cuffs inside footwear or taping pant cuffs around legs. Protection from mosquitoes can be further enhanced by applying an EPA approved repellent to face, hands and other exposed areas of the body.

GEAR: MOSQUITO NETTING, NETS, TENTS, CANOPIES, SCREEN ENCLOSURES, SLEEPING BAGS, BACKPACKS AND GROUND CLOTH: Do not treat inside of sleeping bag. Spray exterior surfaces of tent only. Select a well-ventilated outdoor area protected from wind and layout (or hang) gear to be treated. Hold pump upright about 6 to 8 inches from surface of the article and spray [with a slow sweeping motion] to lightly moisten the surface of the fabric. Continue spraying over entire article, until the outer surfaces of the article are moist enough to cause a light color change [or darkening]. Hang treated gear and allow to dry for at least 2 hours (4 hours under humid conditions) before using. Do not retreat gear more than once every six weeks.

STORAGE AND DISPOSAL

STORAGE: Store in a cool, dry place inaccessible to children. **IF EMPTY:** Do not reuse this container. Place in trash or offer for recycling if available. **IF PARTLY FILLED:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.
